

Counted among the very greatest dramatists, Ibsen 1828 - 1906 profoundly influenced the modern stage. 'Ghosts' written in 1881 is one of a group of plays on a theme that obsessed Ibsen all his life: The way that we are dominated by the past. - Here its particular aspect is the sins of the fathers. Ibsen himself wrote: Quote-"Ghosts will probably cause some disquiet in certain quarters, but if it weren't to do so, I shouldn't have needed to write it".
